PERSONAL PROJECTS

movie_app

- This is a movie app made with JavaScript, CSS, HTML, jQuery and Bootstrap using API calls from the Movie Database. It uses API calls to get movies from the movies database. [↗](#)

snapshot

- It's a simple gallery project where we can search the photos by keywords, change the category based on given options as Mountain, Beaches, Birds, Food. Once you hover on the images, you will get the zoom-in images. [↗](#)
